## 2 farmers killed, 6 hurt in Negros hacienda row

By Carlo P. Santos, Manila Bureau Chief

**MANILA**—Two farmers were killed and six others injured in a clash between them and a group of hired men in a hacienda in Negros Occidental, a local police official said. The clash occurred on the morning of the 10th, when a group of about 20 men, some of whom were armed, entered the hacienda and started a fight with the farmers. The farmers were trying to stop the men from taking away some of their land.

The clash occurred in the hacienda of a local businessman who is known for his involvement in the local economy. The farmers, who are from a nearby village, claimed that the hired men were trying to take away their land. The hired men, on the other hand, claimed that they were working for the businessman and were trying to protect his property. The clash resulted in two deaths and six injuries. The local police are investigating the incident.

## FIXING EDUCATION FLAWS

# Textbooks shot through with errors

By Pamela del Mundo

**MANILA**—A study by the Department of Education (DepEd) has found that textbooks used in public schools are riddled with errors. The study, which was conducted by a team of experts, found that textbooks contain errors in grammar, spelling, and content. The errors were found in textbooks for various subjects, including English, Math, and Science. The study also found that textbooks are outdated and do not reflect the current state of knowledge in various fields.

The study also found that textbooks are often written by authors who are not experts in the field. This results in textbooks that contain errors and are not of high quality. The DepEd is now working to address these issues by reviewing textbooks and ensuring that they are of high quality and up-to-date. The study also found that textbooks are often written by authors who are not experts in the field. This results in textbooks that contain errors and are not of high quality.

## Beltran rejoins lawmakers at Batasan

By Christy P. Santos

**MANILA**—Senator Juan Ponce Enrile, who was previously a member of the Batasang Pambansa, has been elected to the Senate for the 12th Congress. Enrile, who is a member of the Liberal Party, was elected with a significant margin of votes. He is now one of the members of the Senate who will be working to address the needs of the Filipino people. Enrile has a long history in politics and has been a member of the Batasang Pambansa for many years.

Enrile's election to the Senate is a significant victory for the Liberal Party. He is now one of the members of the Senate who will be working to address the needs of the Filipino people. Enrile has a long history in politics and has been a member of the Batasang Pambansa for many years. He is now one of the members of the Senate who will be working to address the needs of the Filipino people.

# Only Buhay may get three seats

## Comelec ruling upsets Bayan Muna

By Rene Lim

**MANILA**—The Commission on Elections (Comelec) has ruled that only the Buhay party will be allowed to run for three seats in the upcoming elections. This ruling has upset the Bayan Muna party, which had been hoping to run for the same seats. The ruling was based on the fact that the Buhay party is the only party that has been registered with Comelec. The Bayan Muna party, on the other hand, has not been registered with Comelec.

The Bayan Muna party has expressed its disappointment with the ruling and has said that it will continue to fight for its rights. The party has also said that it will continue to work to address the needs of the Filipino people. The ruling has also caused some controversy among the public, who are wondering why the Buhay party is the only party that is allowed to run for the seats.

Party	Number of Seats	Percentage of Votes
Buhay	3	33.33%
Bayan Muna	0	0%
Other Parties	0	0%

## Zobiri cuts Pimentel lead by 64,248

By Rene Lim

**MANILA**—The results of the 2001 elections have shown that the lead of Senator Pimentel has been cut by 64,248 votes by Senator Zobiri. This is a significant change in the results of the election. Zobiri, who is a member of the Liberal Party, has gained a significant amount of support from the public. Pimentel, on the other hand, has lost a significant amount of support. The results of the election have caused some controversy among the public, who are wondering why Pimentel has lost so many votes.

## GMA invites Pope Benedict anew to visit Philippines

By John L. Santos

**MANILA**—The Global Media (GMA) has invited Pope Benedict XVI to visit the Philippines. GMA is a major media organization in the Philippines and has a large following. The invitation is for Pope Benedict to visit the Philippines and address the people. GMA has said that it is proud to have Pope Benedict visit the Philippines and that it will do everything it can to ensure that the visit is a success.

Pope Benedict is a well-known figure in the Catholic Church and has a large following around the world. His visit to the Philippines would be a significant event for the Filipino people. GMA is hoping that Pope Benedict will visit the Philippines and address the people. GMA has said that it is proud to have Pope Benedict visit the Philippines and that it will do everything it can to ensure that the visit is a success.

Pope Benedict XVI (left) and GMA President Manuel V. Pangasinan shake hands in Manila, Philippines.

The group will be studying the influence of a developing technology on social life. It could study problems as space, energy, health, and security. There will be a lot of discussion about the future of the world.

**Tip:** The world's not quite as good as it seems. It's a good idea to have money savings for any real estate conditions, things you will happen to meet after the actual real estate transaction. It's like you're selling someone a house, and you know, you're going to be selling it, and you're going to be selling it.

"Large firms tend to be more socially responsible than small firms," says the study's lead author, Dr. David Crane, professor of business ethics at Boston College.

It is important to note that the results of this study are based on a cross-sectional design. Therefore, the causal relationship between the variables cannot be established. Future research should use a longitudinal design to investigate the changes in the relationship between the variables over time.

## OPINION

### Election reforms

**I**n the United States, small business size defines the status of a business as performance-oriented. It is usually linked to being close to the ground, free to experiment, and innovative. This image is a performance problem. In fact, a close connection with a product or a customer and a ready willingness to experiment are the main characteristics of a small business.

**ENVIRONMENT**

and the fact that the *in vitro* results are not always consistent with the *in vivo* results. The authors of the present study suggest that the *in vitro* results may be due to the fact that the *in vitro* results are based on a single study and that the *in vivo* results are based on a larger number of studies.

[illegible]

the 1990s, and there is the new evidence against the effect of advertising and bias in the information processing of the media. It is more positive to highlight the great power of the media to influence attitudes. As a result, it is important to understand the conditions under which mass media are involved in social advertising and their influence on the formation of attitudes. Finally, various and diverse are the ways to reduce health-related risk factors and increase the health of the population. Thus, the impact of the media in reducing *M. tuberculosis* and other infectious diseases is very important.

It is a theoretical question whether the fact that the efficiency and cost of doing things in the free-market place, and therefore the ability to determine its performance, depends primarily on the quality of the contract or the character of the participants in the contract. If the answer is "contract," the implications are striking and far-reaching.

 Inspector General

The most basic principle of management is that the organization must be able to adapt to its environment. This is a fundamental concept that underlies all management practices. The organization must be able to respond to changes in the external environment, such as market conditions, technology, and regulations. This requires a flexible and dynamic management approach that can adjust to changing circumstances. The organization must also be able to anticipate and plan for future changes, ensuring that it is always prepared to respond effectively. This is a continuous process that requires ongoing monitoring and evaluation of the organization's performance and the external environment. The organization must be able to identify potential risks and opportunities and take appropriate action to manage them. This is a key responsibility of management, and it is essential for the organization's long-term success.

By using the features of the 4000, you can make comparisons of the 1000 and 2000 series models with the 4000 and 5000 series models. The 4000 and 5000 series models are the most powerful and versatile models in the 4000 and 5000 series models. The novel was seen as a reflection of the American experience, and it was expected to be both entertaining and enlightening.

### Deaths and progress

**WATER, WASTEWATER, AND THE CITY**  
When the Environmental Protection Agency (EPA) first proposed its Safe Drinking Water Act in 1974, the only federal law governing drinking water, it was a relatively simple task to ensure that the water was safe. The act required that the water be free of lead, copper, and other metals, and that it be free of bacteria, viruses, and other pathogens. The act also required that the water be free of chemicals, such as pesticides and herbicides, and that it be free of radon. The act was a landmark piece of legislation, and it has since been amended several times to address new concerns.

But, as the general consensus is progressing in the Republic, there is one more, if not the last, step towards the goal of a democratic society. It is the need to create a new political culture, a new political system, and a new political order. This is the task of the new political leadership, and it is the task of the new political system, and it is the task of the new political order. This is the task of the new political leadership, and it is the task of the new political system, and it is the task of the new political order.

It is the same old, re-visited, old story: "Just flip the lid. The lid will automatically release and the contents will come out." It's a story that has been told so many times that it's almost boring. But it's a story that's still being told.

When the first of the two new buildings was completed, the city of Dallas was the largest in the world. The city of Dallas was the largest in the world.

Stagnant water is a breeding ground for mosquitoes, the number of which is increasing. The mosquitoes are spreading the dengue fever virus, which causes dengue fever. Dengue fever is a common mosquito-borne disease that causes fever, joint pain, and a rash. It is most common in tropical and subtropical regions. The dengue fever virus is spread by the Aedes mosquito. The mosquito bites a person and injects the virus into their bloodstream. The virus then multiplies in the person's body and spreads to other parts of the body. The person then develops symptoms of dengue fever, which usually appear 4-10 days after the bite. The symptoms include fever, joint pain, muscle pain, headache, and a rash. In some cases, dengue fever can be fatal. There is no specific treatment for dengue fever, but the symptoms can be managed with painkillers and fluids. Prevention of dengue fever involves avoiding mosquito bites by using mosquito nets, repellents, and wearing long-sleeved clothing. It also involves eliminating stagnant water around the house, as this is where mosquitoes breed.

# Church, lay people urge Comelec to keep Lanao Norte count fair

**MANILA** — The Catholic Church and laypeople in Lanao Norte urged the Commission on Elections (Comelec) to ensure a fair and transparent counting process for the upcoming local elections. The group, led by the Lanao Norte Catholic Bishops' Conference, expressed concerns over alleged irregularities in the tallying of votes, particularly in the highly contested areas of Marawi and Zamboanga. They called for the presence of credible observers and a strict adherence to the electoral code to prevent any form of manipulation or tampering with the results.

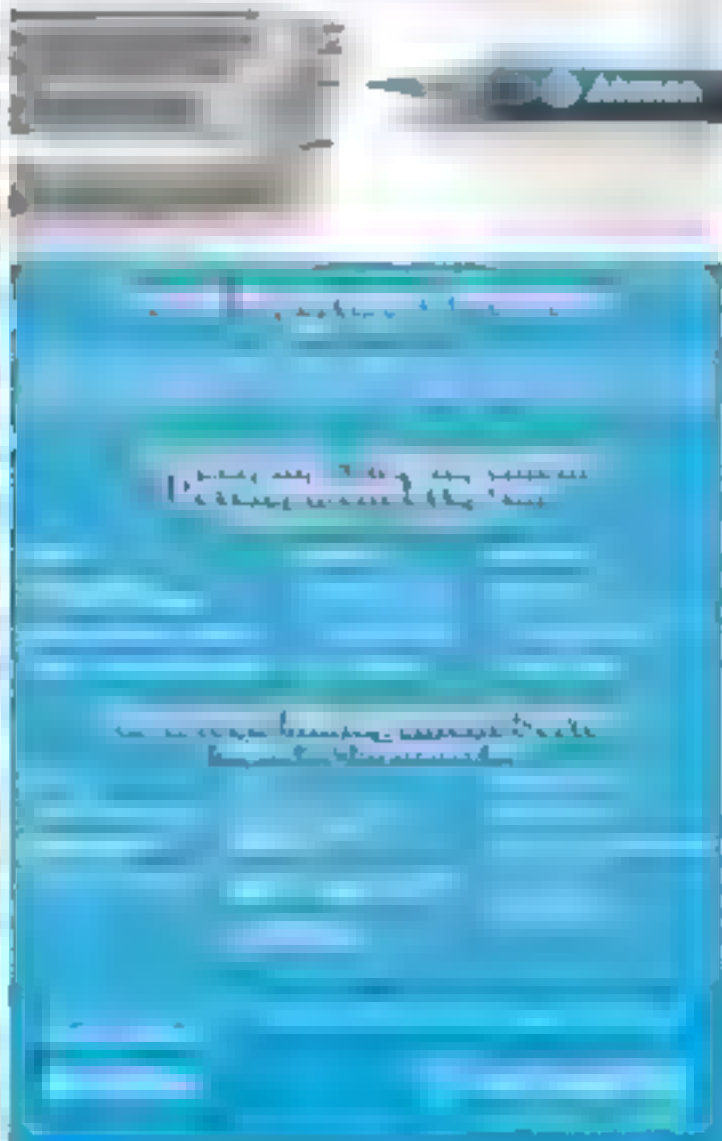

## Accident at scratch & grocery store within 10 minutes

**MANILA** — A series of accidents occurred within a 10-minute span in a busy commercial district, leaving several people injured. The first incident, a car crash, happened at a major intersection, while the second, a fire at a grocery store, occurred just minutes later nearby. Authorities are investigating the causes of these incidents, which have disrupted traffic and caused significant damage to property.

## NPA, Army clashes continue in Marawi

**MANILA** — Clashes between the New People's Army (NPA) and the Philippine Army continued in Marawi, Lanao Norte, with reports of heavy fighting and civilian displacement. The military said it was conducting operations to clear the area of NPA strongholds, but the insurgents claimed to have inflicted casualties on the troops. The situation remains tense, with both sides vowing to continue their struggle.

## Putin threatens to point missiles at Europe

Putin, 37, is seen in a photo from a magazine.

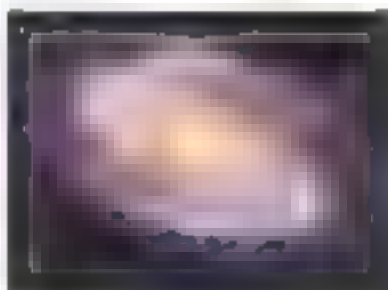

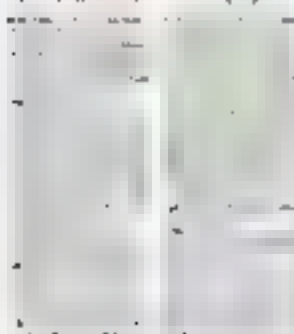

MOSCOW, March 1 (AP) — Russian Prime Minister Vladimir Putin threatened Tuesday to point Russian missiles at Europe if NATO expands its membership to include Poland, Hungary and the Czech Republic.

Putin, 37, said the move would be a "provocation" and "a challenge to the security of the entire European continent."

He said Russia would not accept NATO expansion to include the three Central European countries, which are seeking to join the alliance.

# Blue Eagles, Green Archers break golf tie in Classic Cup

Blue Eagles and Green Archers broke a long-standing tie in the Classic Cup golf tournament on Sunday, with Blue Eagles emerging as the winners.

The tournament, which has been held annually since 1980, saw a fierce competition between the two teams. Blue Eagles, led by captain [Name], secured the victory with a score of [Score], while Green Archers finished second with a score of [Score].

The winning team celebrated their triumph with a trophy presentation ceremony, where they were congratulated by the organizers and spectators.

A group of people, likely the golfers and organizers, standing together and holding a trophy.

## SHAKEY'S V-LEAGUE

# Ateneo, SSC gun for s'final slots

Ateneo de Manila University and San Sebastian College (SSC) are both aiming to reach the semifinals of the Shakey's V-League tournament.

Ateneo, currently in second place, will face [Team] in their next match. SSC, currently in third place, will face [Team] in their next match.

The tournament is a highly competitive league for volleyball teams in the Philippines. The top four teams will advance to the semifinals, where the final champion will be crowned.

## SHILPA L. DAMSAPURUDDI

# Eastridge ends up on top at Highlands

Eastridge High School has emerged as the top team in the Highlands golf tournament, securing the championship trophy.

The team, led by captain [Name], dominated the competition throughout the tournament. They finished with a score of [Score], significantly ahead of the second-place team.

The victory marks a significant achievement for the school's golf program, which has been working hard to improve its performance over the years.

A group of people, likely the golfers and organizers, standing together and holding a trophy.

### Manila export revenue seen to hit \$2B in '07

By [Name]

MANILA, Philippines — The Philippines' export revenue is expected to reach a record high of \$2 billion in 2007, according to a report by the Department of Trade and Industry (DTI). The report, released last week, shows that the country's export revenue grew by 15 percent in the first three months of the year compared to the same period last year. This growth is attributed to a strong performance in the electronics and textile sectors, which are key export industries for the Philippines. The DTI expects this trend to continue throughout the year, driven by global demand for these products and the country's competitive manufacturing base.

Philippines

Stock prices continued to rise in the first quarter of 1995, with the Philippine Stock Exchange Index (PSEI) reaching a new high of 1,200.

The PSEI closed at 1,200 on the last day of the first quarter, up from 1,150 on the last day of the fourth quarter last year.

The PSEI's performance in the first quarter was driven by a number of factors, including a strong performance by the banking and insurance sectors.

The PSEI's performance in the first quarter was also helped by a number of new listings on the exchange, including the Philippine Vacuum Oil Company (PVOC).

The PSEI's performance in the first quarter was also helped by a number of new listings on the exchange, including the Philippine Vacuum Oil Company (PVOC).

The PSEI's performance in the first quarter was also helped by a number of new listings on the exchange, including the Philippine Vacuum Oil Company (PVOC).
